Start the year right. Spend January in fixing up the interior of your home. Furniture is required to make it nice. Furniture is cheaper now than it used to be. Most Hawaiian people have returned from summers spent on the coast and during the social happenings of the winter your home should look well. During this month J. HOPP & CO., the furniture dealers, will be able to show you many bargains in their Young Building stores.

How we can sell it cheaper.

J. HOPP & CO. in order to lessen the cost of furniture in Honolulu and believing that to cheapen the cost of one of the greatest necessities of a household would also mean greatly increased sales sent a representative of the firm about four months ago to the eastern furniture factories. The buyer secured our goods direct from the great factories in the east and had them shipped to San Francisco in carload lots thus greatly lessening the cost of freight and handling and consequently making their cost delivered in Honolulu a great deal less than if the same articles were brought here in small shipments. All of these goods were bought at the factories for cash-a big saving for us in the cash discounts thus earned. In Grand Rapids, Rockford, and in many of the other large eastern furniture factory towns labor is cheap and the best to be had and lumber is obtained there close to the mills—to buy direct from these places is getting goods at bed rock prices. The goods bought three and four months ago have now arrived here, and we are displaying them in our large Young Building stores. As an indication of the quantity of goods brought here it might be mentioned that one shipment of chairs was made up of over 3000 chairs-and in addition to this shipment we had others from a half dozen other factories. We brought all sorts of furniture from the best to the cheapest and every piece of furniture is worth as much as we charge for it. In many cases in the best grade of furniture we can sell it to you at less than you could buy the same article in San Francisco, for our expense of doing business in Honolulu is many per cent less than that of furniture dealers in larger cities.

General William W. Belknap went to the War of the Rebellion as the major of the Fifteenth Iowa Infantry. In one of the companies of that regiment was a young fellow named Darby Greely. When the regiment was marching over the gang-planks on to the steamer Sucker State, the major sat on his horse close by. As Darby Greely stepped on the plank his mother grabbed him, and pulled him to her bosom. With intense Irish emotion she cried and crooned over him, and then, seeing the major, she cried: "Darby, me b'y, stick close to the major an' ye'll niver

For Discriminating **Dressers**

There is art in Tailoring and I would rather, for the sheer satisfaction of the thing, make one suit for a man who appreciates good clothing than two for individuals who don't,

It is to discriminating dressers that I cater-men who know what they want and when they are getting it-customers, in short, who are perfectly aware of what's what in the clothing line.

When a patron orders a suit he gets the best selection of material that there is in town. My stock of patterns is continually being replenished from the mainland fashion

The workmanship is conscientious and high-class in every particular and all linings and trimmings are in perfect keeping with the fabric and are treated as an important part of the suit.

The lines of garments will be found accurate and faultless while the hand manipulation and tailor work are a guarantee for exactness of fit and satisfactory service.
